Subject:	Proposal for Continuation of Luminescent Rear Projection Screen Development	
	Register Number 3-2554	,
Gentlemen:		
Generemen.		
for the develo	has been conducting a feasibility program	
	opment of a high resolution screen. The program is evidencing a success and it is the opinion of both	
	that continuation of this program will result in a highly	
desirable proj	ection system.	
The basic crit	eria which was established at the beginning of the program was	
	the rate of information transfer from the projected image to We are of the combined opinion that the final result of this	
program will e	exceed this goal to the point where today's conventional systems	
may be obsolet	ed.	
	ttached to this letter outlines a one year program utilizing	
The proposal a
